

# STEAMPARK ROBOTS

## A FULL PLASTIC UPGRADE

This **Steam Park** mini-expansion allows you to replace the wooden Roboburgers from the **Steam Park base game** and the **Play Dirty expansion** with shiny new plastic ones! On top of that, a new kind of Roboburger is also included: meet the **V.I.R.**! They are a little bit snobbish, but bring them to your park and you will easily earn a lot of money!

## VISITORS GONE WILD

**Steam Park: Robots** includes two new types of “wild” **Visitors**: the **V.I.R. Visitors** and the **Stingy Visitors**.

**SETUP:** At the beginning of the game, place the **V.I.R. Visitors** (gold) and the **Stingy Visitors** (grey) in the **Visitors pool**, together with the Visitors from the base game. But, when you put the initial Visitors into the bag during **Step 7 of Setup**, don't put any Wild Visitors in the bag.

When you draw a Wild Visitor out of the bag, you can place them on **any Ride, regardless of its color**, and they will **stay there until the end of the game**. There are also special rules for **HOW TO ATTRACT THEM** and **HOW THEY BEHAVE** (see next page).

**BORING RULES:** Wild Visitors are considered to be **their own color**, *not* the color of the Ride they are placed in (so take this into account when you check the effect of some Bonus cards).

**NOTE:** **Stingy Visitors** are also included in the **Steam Park: Play Dirty expansion**. If you already have it, you can use the plastic miniatures included in this mini-expansion to replace the original wooden ones. If you **do not have Play Dirty**, no worries: just keep reading to know how they work! Did you think we were that greedy? **Steam Park: Play Dirty** contains other new, exciting rules, though: Espionage dice, new stands, new rides, and you can even play with up to 5 players! Doesn't it sound great? Ok, now that we are done with shameful advertising...

# V.I.R. VISITORS

V.I.R. Visitors are snobby elitists, they don't like to car pool with the mob. But they like to spend, and you like money, don't you? Yes, you do.

**HOW TO ATTRACT THEM:** You can Attract V.I.R. Visitors into the bag only if you **spend exactly one**  **when you perform the Attract Visitors action.**

When you perform the **Attract Visitors** action by spending only 1 , you may choose and take **1 regular Visitor AND one V.I.R. Visitor** from the Visitors pool and put them both in the bag. If you do, when you draw Visitors to complete the action, **you must draw out TWO Visitors instead of only ONE.**

**HOW THEY BEHAVE:** Aside from the above, V.I.R. Visitors behave just like regular Visitors. During the Income phase, you **gain 3 Danari** for each V.I.R. Visitor you have in your park. During the Dirt phase, you **receive 1 Dirt** for each V.I.R. Visitor you have in your park.

# STINGY VISITORS

Unlike V.I.R. Visitors, Stingy Visitors are poor as church mice! However, they have a higher regard for their personal hygiene.

**HOW TO ATTRACT THEM:** You can Attract Stingy Visitors into the bag only if **at least one of the base colors is no longer available in the Visitors pool** (they can still be present in the bag, though).

**HOW THEY BEHAVE:** During the Income Phase, each Stingy Visitor only pays you **2 Danari** (instead of the normal 3 Danari per Visitor). However, during the Dirt Phase, you don't gain **any Dirt** for any Stingy Visitors you have in your park.
